

TRACE

Tool for Rapid Assessment of City Energy

**A Decision Support Tool for Evaluating
Energy Efficiency Opportunities in Cities**

PARIS KEF TRAINING

TRACE Implementation Summary

	Pre-mission		Mission/TRACE Implementation				Post-mission
Principal Activity	Preparations for Mission-Data Gathering	City Energy Use Benchmarking	TRACE Sector Meetings	Assess Most Promising Sectors	Review Recommendations in Priority Sectors	Prepare Final Recommendations	Prepare Final City Report
Duration	6 weeks		4 days	1 day	4 days	1 day	4 weeks

TRACE Implementation Summary

	Pre-mission		Mission/TRACE Implementation				Post-mission
Principal Activity	Preparations for Mission-Data Gathering	City Energy Use Benchmarking	TRACE Sector Meetings	Assess Most Promising Sectors	Review Recommendations in Priority Sectors	Prepare Final Recommendations	Prepare Final City Report
Duration	6 weeks		4 days	1 day	4 days	1 day	4 weeks

Phase 1: Data collection phase to collect and collate city data (6 weeks)

Gathering data and background information

Activities:

Guided data gathering process to collect data needed for benchmarking exercise, and collecting background and contextual information in preparation for the city visit.

Output:

Background City Report

TRACE Implementation Summary

	Pre-mission		Mission/TRACE Implementation				Post-mission
Principal Activity	Preparations for Mission-Data Gathering	City Energy Use Benchmarking	TRACE Sector Meetings	Assess Most Promising Sectors	Review Recommendations in Priority Sectors	Prepare Final Recommendations	Prepare Final City Report
Duration	6 weeks		4 days	1 day	4 days	1 day	4 weeks

Step 2: Benchmarking process

Activities:

Data from the City Background Report is entered into the TRACE, and the Municipality selects a peer group of cities against which the relative energy performance of the city will be measured.

Output:

TRACE software presents the results in an interactive manner that allows the user to browse and filter for a comprehensive view of relative performance within each sector.

TRACE Implementation Summary

Pre-mission		Mission/TRACE Implementation				Post-mission
Preparations for Mission-Data Gathering	City Energy Use Benchmarking	TRACE Sector Meetings	Assess Most Promising Sectors	Review Recommendations in Priority Sectors	Prepare Final Recommendations	Prepare Final City Report
6 weeks		4 days	1 day	4 days	1 day	4 weeks

Phase III: Preparation of the first draft of the city report based on the TRACE results (4 weeks)

Step 7: City Report

Activity:

Summary of key information that includes an outline action plan with key tasks to help the municipality develop a detailed implementation plan.

Output:

Final city report ([Click here for an example of a Final City Report](#))
